LEGISLATIVE GRIST.

Legal Matters in the Lead—A Brace of Bills Passed—Volunteer Firemen.

A Printing Bill in the House—Much Business and Little Speech Making.

SENATE.

YESTERDAY'S AFTERNOON SESSION.

The president called the council to order at 2:30 p. m., the time to which the council adjourned.

The president announced that the order of business now pending before the council was the introduction of a bill.

Mr. Rodey introduced an act entitled "An act with reference to practice in the supreme court and for other purposes."

Mr. Fort moved a suspension of the rules and that the bill be read the second time. Adopted.

The bill was read the second time by its title. Mr. Catron stated that it was very important that this bill should be passed at once, and he therefore moved that it be now referred to a special committee of three members. Adopted.

The president appointed said committee Messrs. Catron, Rodey and Franks.

Mr. Rodey introduced an act entitled "An act relating to cognovit." Read the first time.

On motion of Mr. Fort the council adjourned till 10 a. m.

TO-DAY'S SESSION.

Upon the opening of the council this morning the following bills were introduced:

By Mr. Perea, an act in relation to the opening of streets.

By Mr. Fort, an act pertaining to wills.

By Mr. Jaramillo, an act to repeal secs. 387 and 389, Compiled Laws, providing that in case of death, resignation or failure to qualify of any county officers, the county commissioners shall have power to appoint other officers.

By Mr. Franks, an act to change the name of William R. Coolbaugh to William R. Tompkins.

By Mr. Fort, an act pertaining to the acknowledging and recording of deeds and instruments in writing affecting real estate.

By Mr. Rodey, an act relating to practice in criminal cases and payment of fines.

By Mr. Rodey, an act relating to proceedings in civil cases.

These bills were read first time, rules suspended and read a second time, and laid on the president's table to await the appointment of the standing committee.

Bills and resolutions on the president's table were read a second time.

The senate then took up house bill No. 4, entitled "An act with reference to practice in the supreme court and for other purposes."

The speaker then referred the various subjects treated of in the message to the proper committees.

Documents on the speaker's table relating to the contest from San Miguel between Donaciano Garcia and Felix Martinez were referred to the committee on privileges and elections.

On motion of Mr. Foster the speaker was authorized to arrange with the honorable secretary of the territory for copies of the territorial and session laws.

On motion of Mr. Romero the rules were suspended and a resolution was adopted authorizing the committee on privileges and elections to employ a clerk at a salary of \$3 per day.

C. B. Romero, of Bernalillo county, sworn in as such clerk.

Mr. Fountain presented H. B. No. 4, "An act with reference to practice in the supreme court and for other purposes," which was placed upon its third reading, considered as engrossed, and passed.

Council bill No. 1, "An act to repeal an act to provide the means to enable the penitentiary authorities to employ the convicts in mining work," was taken from the speaker's table, placed upon its third reading, considered as engrossed and passed by a unanimous vote.

Adjourned to 10 a. m.

TO-DAY'S SESSION.

House met at 10 o'clock. Quorum present. Prayer by the chaplain. Reading of the journal suspended till the afternoon.

Mr. Baldwin arose to a question of privilege, stating that several members of the house misunderstood the call for the passage of council bill No. 1 on yesterday, and as they had voted in the negative they wished to now change their vote to one in the affirmative. So ordered.

SANTA FE'S MINES.

A New Coal in the Local Market—Shots from the Shafts.

W. E. Dame has charge of the force of men just put to work on the Benton gold property.

Messrs. John H. King and Richard Gilpin purchased mining supplies here last night and left today for San Pedro.

O. F. Perry left this morning on a short trip to the Chama placers. There appears to be a splendid future at hand for this property.

Jos. Thornton visited the Cash Eater yesterday in company with a prominent mining man from Kansas City, and found things running on very smoothly.

The Mining and Engineering Journal of New York says the Santa Fe Copper company's "shares are selling at \$2. The stock will be called at the stock exchange in Boston later on. The shares have a par value of \$10.

Supt. Rannheim, of the Santa Fe Copper company, returned to San Pedro yesterday. He stated that the third copper furnace would be started in about two weeks, or sooner if the new furnace linings arrived from San Francisco.

Mr. H. Whitmore, of Chicago, who has charge of the Rice and other rich properties near Golden, is now on the ground experimenting with the specific gravity idea for separating the gold from the gravel and black sand. He has a rather unique idea about this long standing problem and old miners agree that it is well worth testing to its fullest.

The first car of coal ever shipped in over the narrow gauge road arrived yesterday from the Monero banks, owned by Messrs. Catron, Clancy and others. This is of an excellent quality, and cost laid down here, \$5 per ton, which is \$1.50 below the present cost of Cerrillos coal.

Col. Fisher has the local agency for this coal. Cerrillos coal men will probably meet the reduced price if the A. T. & S. F. will stand by them.

Old papers for wrapping for purposes sold at this office.

Evaporated Fruit.

Within a radius of forty miles of Rochester there are more than 1,500 fruit evaporators. These evaporators give employment during the autumn and winter to about 30,000 hands, whose wages average from \$5 to \$12 a week. Last season the production of these evaporators was about 30,000,000 pounds, worth at first cost about \$2,000,000. The principal consuming countries abroad are Germany, England, Belgium, Holland and France, in which the new product has entirely displaced the old fashioned sun dried fruit. West Africa and Australia are also beginning to call for evaporated fruit.

The above extract is printed here with a view to start the people of Santa Fe to thinking out plans for preventing thousands of pounds of excellent fruit from going to waste here each year. Some remedy must be devised. Who will take the lead?

For thorough work, handsome finish, prompt execution and reasonable charges take your binding to the New Mexican office.

Shiloh's Catarrh Remedy

The Best Cure

For Catarrh is Ayer's Sarsaparilla. It eradicates the virus from the blood, and thus removes the cause of the disease. Begin treatment at once, before the nasal tissues are destroyed and the whole system poisoned.

"I have been more or less troubled with catarrh, but never very seriously until the spring of 1882. At that time, I took a severe cold, which, notwithstanding all efforts to cure, grew worse, and finally became a chronic catarrh. I tried many of the so-called specifics, but obtained no relief until I began the use of Ayer's Sarsaparilla. After using nearly two bottles of this medicine, I noticed an improvement. When I had taken six bottles, all traces of catarrh had disappeared and I was restored to perfect health."

—A. B. CORNELL, Fairfield, Iowa.

"I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physicians, but received no benefit until I commenced taking

Ayer's Sarsaparilla. It cured me of catarrh, and has ever since been of great benefit to me."

—J. F. FARM, Independence, Va.

Thos. Dalby, Watertown, Mass., long a sufferer from lung and rheumatism, has been so greatly improved since using Ayer's Sarsaparilla, that he has every reason to believe it will effect a permanent cure.
